Mackrell Turner Garrett is a full service law firm based in Woking Surrey and also in London. Mackrell Turner Garrett can provide legal advice and assistance in a timely and cost efficient way for both you and your business in the UK.

We maintain a strong commercial background which can be traced back to 1845. To quote our firm's founder John Mackrell:

*"...solicitors should be not only sound lawyers, but also good men of business and that a solicitor's success in life often depends more upon his qualification to advise upon, and deal with important questions of business, than upon his attainments as a mere lawyer..."*

We are one of the founders of Mackrell International, one of the largest and longest established international organisations of independent law firms in the world. Through Mackrell International we are able to offer assistance to clients who have need of immediate international legal advice and access to many other jurisdictions worldwide.

**Mackrell Turner Garrett is delighted to support WABF and their ongoing work in the community.**

Transforming Lives, Shaping Destinies
