We are a leading South East law firm providing a full range of services to individuals, businesses and other organisations. Many are located in Surrey and the Greater London area. However, as many legal issues can be progressed via electronic communication, we draw clients from all over.

Many referrals are made - perhaps because of our efficient, no nonsense approach, coupled with the personal service and experience of a designated senior lawyer who oversees each client matter. TWM is known as a highly competent provider of legal services along with a culture which gives emphasis to developing and nurturing relationships with clients at all levels, while allowing all staff to achieve their potential.

**Transforming Lives, Shaping Destinies**
